FOR IMMEDIATE RELEASE

“A PHYSICIAN EXAMINES THE MIRACLES OF JESUS” New Book Inspires Readers With Stories of Divine Healing, Intervention

AMARILLO, Texas, August 1, 2008 – The miracles of the Bible have always been a source of wonder and inspiration, especially to those who are ill or who face seemingly insurmountable challenges.

In his third book on the subject, “A Physician Examines the Miracles of Jesus,” Dr. Roberto Estevez examines Jesus’ miracles, analyzes the causes and effects of each Divine moment, and provides relevant applications to help readers live more fully today.

“My patients’ feelings and concerns are basically the same as those who needed a miracle two thousand years ago,” says Dr. Estevez, who has practiced medicine for nearly 40 years. “It is my hope that by dissecting these Biblical illustrations, readers will come to know the power and character of Jesus in a new and profound way.”

“A Physician Examines the Miracles of Jesus,” is easy to read and full of beautiful and creative illustrations to help readers identify with the recipient of the miracle, or with those surrounding and watching Jesus while he demonstrates his power. This highly inspirational book contains 35 simple chapters broken into five sections: “Power Over Demons,” “Power Over Death,” “Power Over Nature,” “Power Over Illness,” and the “Power in the Person of Jesus.”

“Dr. Estevez’s writings on the miracles of Jesus from the perspective of a medical doctor are to my knowledge the only work of this nature in print today,” states Dr. James Bartley, director of the Baptist Bible Seminary in Uruguay. “He demonstrates his expertise as a medical doctor giving insights that are not found in other commentaries.”

– more –

Dr. Estevez has practiced medicine since 1970. He has served in various roles at the North West Texas Hospital in Amarillo including chief of the Department of Medicine and chief of the Department of Cardiology. Dr. Estevez also has been vice president of Medical Staff at the High Plains Baptist Hospital in Amarillo and currently serves as an assistant professor of medicine at Texas Tech School of Medicine. A native of Uruguay, Dr. Estevez is a long-time resident of Amarillo where he resides with his wife Elizabeth.
